## What's important to you is important to us.

Introducing Express collections from Amtico.

A carefully curated selection of Amtico Spacia and Colour Anchor Carpet designs, in versatile colours and sizes to meet the needs of your commercial flooring projects.

Amtico Express combines the design originality and high-quality durability and performance that sets our flooring products apart. All backed by 10 year commercial warranties and the peace of mind that comes with specifying a leading brand.

As Amtico's Express collections are fully stocked here in Australia, we're able to offer short and convenient lead times, ready to meet your deadline.

Speak to your Amtico sales representative for samples or to find out more.

# Spacia Performance

## Trusted Experts

With over 50 years expertise in every floor, you can be sure that at every step of the Amtico process are trusted experts with specialist knowledge and industry experience. We're proud to say our LVT achieves up to a level 5 P rating on a wet pendulum test when assessed by an independent test house.

Make an impact, but not on the environment.

We're committed to environmental responsibility and Amtico LVT is a low-level environmental impact product.

CONTINUOUS IMPROVEMENT

- Through our innovation culture, we focus on:
- Designing out waste from the very start of the process.
  - Ensuring our floors do not contribute to poor air quality in buildings by keeping their VOC emissions low.
  - Working to ensure that product safety is paramount by insisting our PVC resin has low vinyl chloride monomer content.
  - Maximising the lifetime of our products, to ensure that our products offer a long-term solution for our customers. As a result we are able to offer some of the longest warranties in the flooring industry.

BREEAM accreditation achieved for Amtico Signature, Spacia, Marine and Assura.

Recognised around the globe, our BSI accreditation represents the latest and highest standard of environmental impact awareness, operational control and use of materials.

PRE-PRODUCTION

We have a sustainable supply chain, customer audited ethical trading policy and commitment to using phthalate free products, recycled glass beads and bio-based plasticiser.

PRODUCTION

Spacia LVT is manufactured using 30% recycled waste content and our energy, water, waste, ecology and emissions have been independently verified and contribute to the attainment of the BRE Global Green Guide online A+ classification. Almost all production waste is recycled back into product and Amtico sends zero waste to landfill.

WELLBEING

We pay attention to our health and working conditions, offer support and services to all colleagues to keep ourselves healthy and aware of our wellbeing.

POST-PRODUCTION

All our packaging can be recycled and almost 100% of our internal packaging is reused or recycled. Any flooring we can't reprocess is supplied for other PVC use and our direct delivery service reduces our carbon footprint.

LEADING STANDARDS

Our Environmental Management System is ISO 14001:2015 certified. We're dedicated to raising environmental awareness across suppliers and contractors and support local environmental projects.

POLICY

We set ourselves tough targets to meet environmental commitments through an Environmental Policy, taking care to protect ourselves and our neighbours.

For samples please  
contact your local  
Amtico representative.

# Accreditations

Our ethos is to combine creativity and innovation with the highest levels of quality – design, manufacturing, product and service.

 	The Amtico Spacia range is verified and certified as A+ on the BRE Global Green Guide Online for use in retail, domestic, education, commercial, healthcare, industrial, hospitality and leisure sectors.		Amtico Spacia products have received the mark of quality issued by the CSTB (French Standards organisation) and have been UPEC classified, therefore conforming to local French legislation.
Z-156.603-519	Amtico Spacia products comply with German building regulations as certified by DIBt.		The CE mark is a confirmation by Amtico that our products are in compliance with European health, safety and environmental requirements (as required by Council Directive 89/106/EEC and detailed in EN 14041).
	Amtico is a member of the professional association for flexible floor covering manufacturers in Germany.		Amtico International GmbH is a member of the DGNB German Sustainable Building Council.
	Our quality system complies with BS EN ISO 9001 and is certified by LRQA.		Recognised around the globe, our BSI accreditation represents the latest and highest standard of environmental impact awareness, operational control and use of materials.
	Amtico Spacia products are third party certified for low-VOC emissions contributing towards good indoor air quality.		
	Amtico Spacia products are manufactured using both phthalate free and bio-based plasticisers except for recycled content.		SOLS PVC Pro is the French professional organisation of PVC flooring manufacturers; standing for their shared values and commitments related to environment, comfort, regulation and communication.

Visit amtico.com for more information on our product range, inspiring ideas, maintenance and installation advice. Every effort is made to achieve accurate reproduction of products in this brochure, however printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They give only a general indication of the design. Tone and shading can vary slightly from batch to batch and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification. All metric sizes are rounded. All products are manufactured in line with EN649, EN ISO 10582 and EN1307. Brochure correct at the time of printing. Our website is regularly updated with the most up to date information.
