

'At last... A way to cut your floor preparation time in half, while saving your back & knees...'

SUPA SANDER®

Introducing the new

SupaSander®

Clean contaminated floors in a single pass, without bending over...

This is what you've been waiting for...

7 Reasons why the SupaSander® will work for you

1. It will remove paint, plaster & a variety of adhesives in a single pass, **cutting your preparation time in half...**
2. The 4 rotating diamond heads give a smooth finish for direct sticking, **without getting down on all fours to scrape...**
3. Eliminates the need to constantly replace expensive sand paper **saving you down time & money...**
4. No need to buy new machinery as it attaches directly to your existing sander. ie: Polivac...
5. Avoids you getting tired on the job & slowing down because of labour fatigue, **so you get the job done quicker...**
6. Avoid the need to acid etch or scabble as it creates a porous substrate for the bonding of adhesives, **saving you time & money on call backs...**
7. Cleaner floors than ever before, in half the time, with **no aches or pains for your effort...**

SupaSander® Really Works!

"I am extremely happy with the performance of the SupaSander® diamond plate. It has proven to be highly cost effective on countless projects. A very handy tool that saves time & money."

Peter O'Leary
PDO Floors

SupaSander® Saves Time & Money

The four head SupaSander® attachment you supplied worked a treat & has also proven very successful for many other applications. I recommend this product to any floor layer interested in saving time, money & labor fatigue."

Glen Sinclair
