Beautifully simple

Piazza Caldera - Broken Bond & Dawlish Oak - Stripwood, bespoke curve

Introducing Spacia: a collection that's beautifully simple to work with. Featuring impactful wood and stone designs, Spacia easily blends contemporary appeal with the durability necessary for any commercial space. For LVT flooring that delivers every single time, whether you're aiming for sleek modernity or classic charm, Spacia simply works.

10 YEAR

COMMERCIAL WARRANTY

Spacia

0.55 mm

WEAR LAYER

The wear layer in Spacia ensures excellent impact resistance and high clarity, making it ideal for high-traffic areas that demand both performance and style.

AMTICO ACOUSTIC

Acoustic backing can be specified on standard planks & tiles and laying patterns without stripping.

AMTICO SAFETY

Spacia can be specified with Amtico Safety, offering enhanced slip resistance for any commercial space where safety is paramount.

ANTIMICROBIAL PROTECTION

Spacia's antimicrobial properties provide an extra layer of protection, actively reducing bacteria by more than 99% within 24 hours compared to untreated polyethylene surfaces.*

*See page 72 for more information.

AMTICO BIO

Available to specify with 42% bio-attributed content on all standard planks & tiles.

Bude Oak - Stripwood

140

PARQUET OPTIONS

Any of our Spacia wood products can be laid in any of our Spacia laying patterns, including parquet. This unlocks 140 parquet options: a level of versatility no competitor can match.

BRITISH MANUFACTURING EXPERTISE

Over 60 years of LVT innovation & expertise.

DRYBACK LVT

High-quality glue-down vinyl flooring that's designed for long-lasting durability and style.

Amtico Spacia's wood and stone collections are designed with careful attention to detail, capturing the authentic beauty of natural materials. Each wood plank and stone tile is crafted to harmonise with the next, ensuring a cohesive look with even greater style and simplicity.

ORDER FREE SAMPLES

Fontana Marble Black & Fontana Marble White - Uniform Tile

Birchfield Oak - Stripwood

Spacia helps simplify specification by streamlining how you choose planks and tiles. Every one of our wood designs is available in every plank size, empowering you to use any design in any of our laying patterns, including parquet. Our stone collection follows the same approach, making it even easier to create cohesive, distinctive interiors.

Performance

Flooring fit for the future.

Specify Amtico Bio
Amtico Bio is our first bio-attributed LVT flooring. It is made with bio-attributed PVC, which replaces fossil fuel feedstocks with more sustainable renewable biomass alternatives. Specifying Amtico Bio reduces the embodied carbon of Amtico LVT by between 20 to 28%,* whilst still offering the same performance and finish.

We use carefully selected and audited sources of biomass to create the renewable ethylene that goes into our bio-attributed PVC. This includes by-products such as Crude Tall Oil (CTO) from trees and Used Cooking Oil (UCO).

Spacia is available to specify with 42% bio-attributed content on all standard planks and tiles.

What silence looks like.

Specify Amtico Acoustic
Amtico Acoustic enhances the acoustic properties of LVT by reducing impact sound transmission by up to 18dB and also provides an extra level of comfort underfoot.

Amtico Acoustic brings another layer of performance and versatility to the design, quality and durability you expect from Amtico.

Added protection against bacteria and viruses.

Benefit from Antimicrobial Protection
We add an antimicrobial ionic silver additive to our Quantum Guard Elite PU lacquer that provides a hygienic surface where bacteria and viruses will struggle to multiply or survive.

Embedded antimicrobials are not designed to replace cleaning and disinfection, but to provide an additional level of protection between regular cleaning cycles in high traffic spaces.

This has been independently tested to ISO 22196 and shown to reduce harmful bacteria, including MRSA and E. coli, by over 99.9%** within 24 hours compared to untreated polyethylene surfaces.

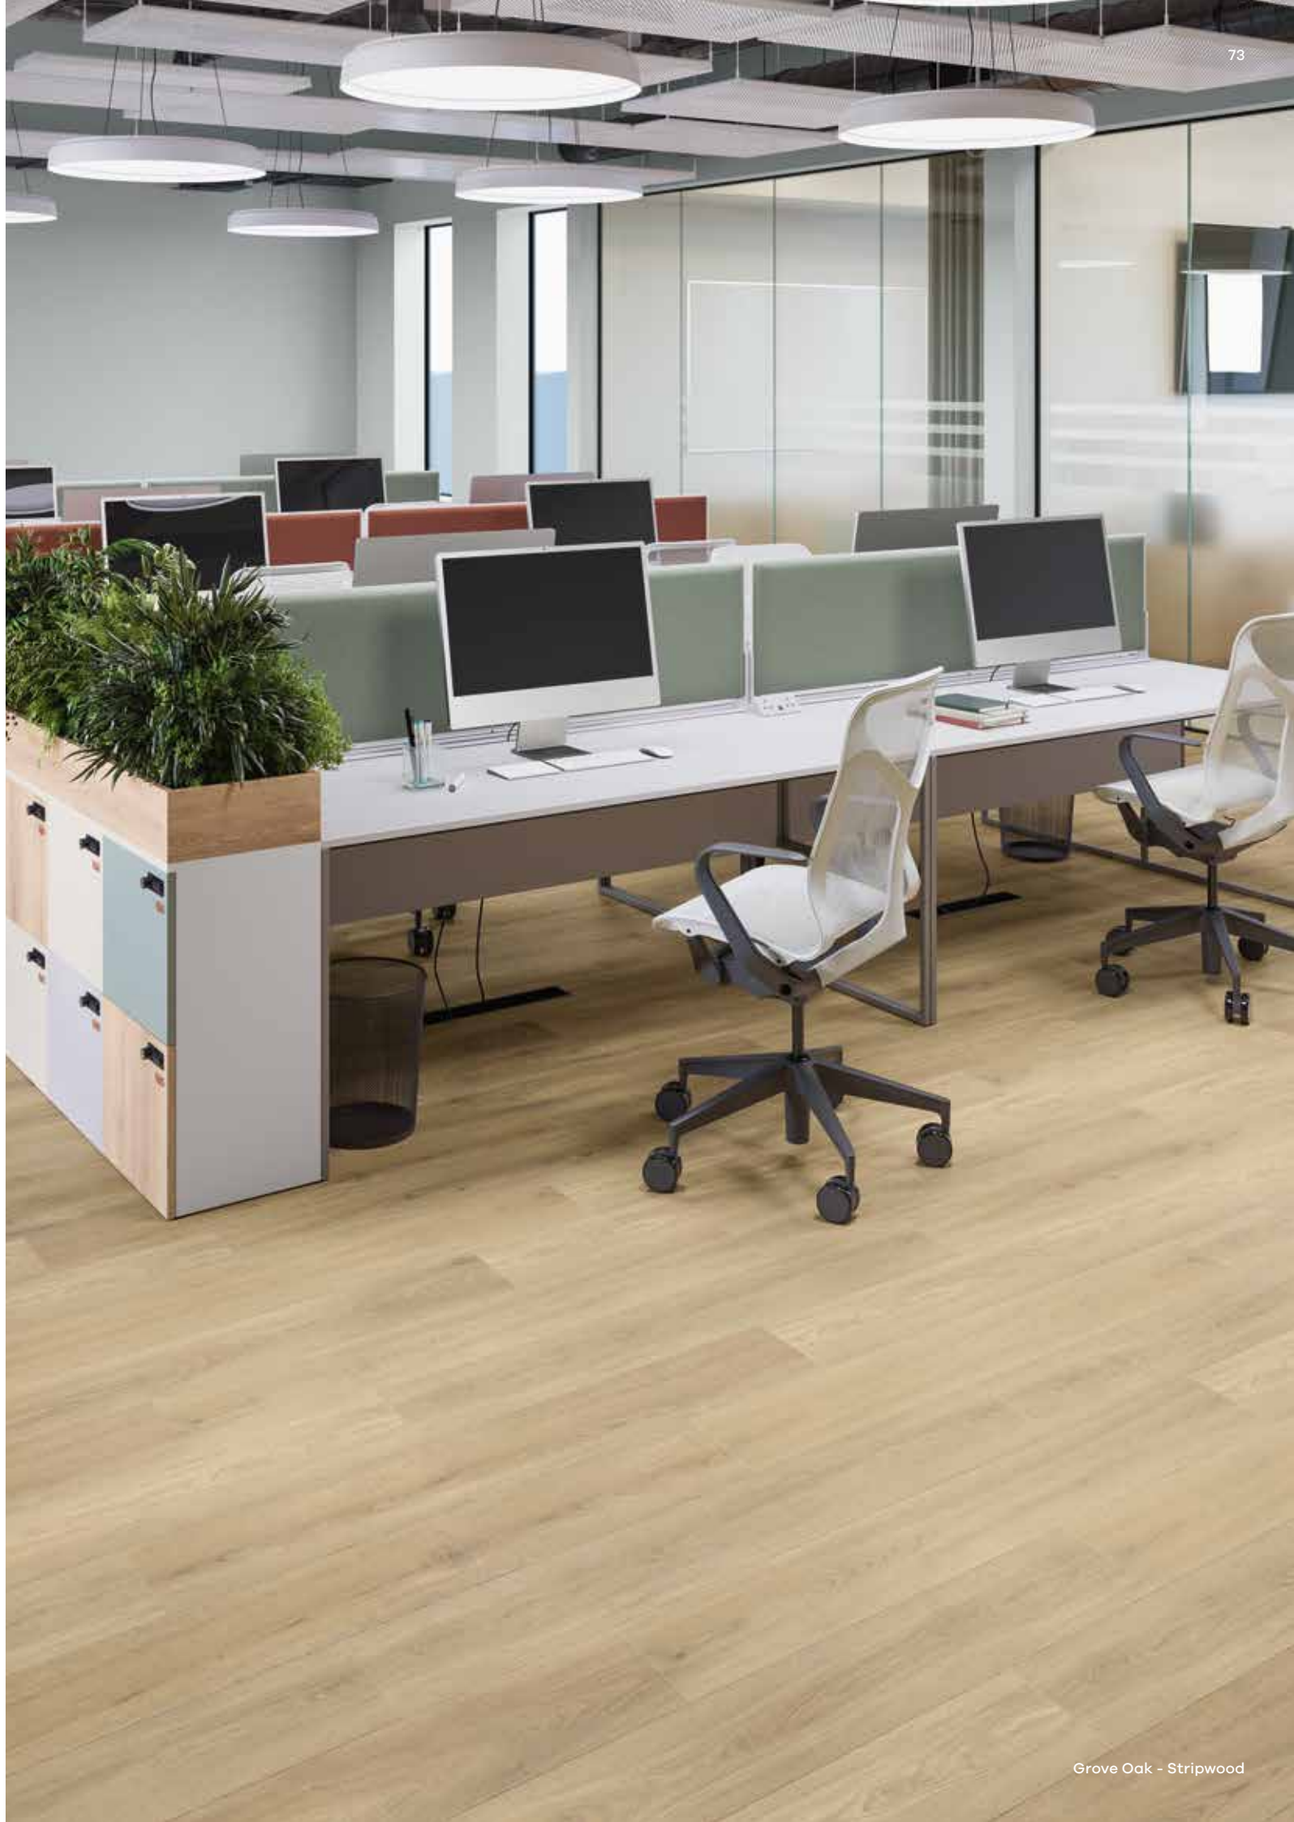

All our antimicrobial flooring achieves the same levels of high performance against sunlight, scuffs and stains and heavy traffic that you expect from any Amtico floor.

For safety beyond the surface.

Specify Amtico Safety
Most safety floors only have one additional safety layer. Amtico Safety flooring has several layers of safety, design and antimicrobial features.

All of our floors meet the BS EN 13845 Enhanced Slip Standard, taking our commitment to safety, hygiene and design far beyond surface level.

*Varies by range, see the Amtico Bio brochure for more details.
**ISO 22196 testing demonstrated ≥99.9% reduction of MRSA and E. coli on Quantum Guard Elite PU lacquer within 24 hours compared to untreated polyethylene film. ISO 21702:2019 testing demonstrated an 85.5% reduction of SARS-CoV-2 within 24 hours compared to inert glass. Applies only to Quantum Guard Elite PU lacquer. Contact your Amtico representative for details on Amtico options with the same antimicrobial protection.

Accreditations

Our ethos is to combine creativity and innovation with the highest levels of quality – design, manufacturing, product and service.

TECHNICAL INFORMATION

View all the technical, installation and maintenance details.

The CE mark is a confirmation by Amtico that our products are in compliance with European health, safety and environmental requirements (as required by Council Directive 89/106/EEC and detailed in EN 14041).

In the UK, Amtico has partnered with the Dementia Service Development Centre (DSDC) to review and accredit our flooring collections to help people with (or caring for those with) dementia to live well.

Amtico Spacia complies with Indoor Air Comfort Gold version 6.0 and is certified as a low-emissions product contributing to a healthy indoor environment.

Amtico Spacia has been certified to achieve the M1 building materials emissions classification for indoor air quality from the Finnish Information Foundation RTS.

Amtico is a member of the professional association for flexible floor covering manufacturers in Germany.

Our quality system complies with BS EN ISO 9001 and is certified by LRQA.

Amtico Spacia products are third-party certified for low-VOC emissions contributing towards good indoor air quality.

Amtico products are manufactured within ISO14001 compliant facilities.

ORTHO-PHTHALATE FREE

Amtico Spacia products are manufactured using ortho-phthalate free plasticisers.

Amtico International are proud to be affiliated with the Valobat Eco Organisation, whose objective is to collect and organise the end of life cycle of Amtico products in France.

Amtico International GmbH is a member of the DGNB German Sustainable Building Council.

Revêtements de sol résilients 326-002.1
http://evalution.cstb.fr

Amtico Spacia products have been UPEC classified, therefore complying with the UPEC classification.

Visit amtico.com for more information on our product range, inspiring ideas and maintenance and installation advice. Every effort is made to achieve accurate reproduction of products in this brochure; however, printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They give only a general indication of the design. Tone and shading can vary slightly from batch to batch and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification. All products are manufactured in line with EN ISO 10582. Brochure correct at the time of publication.
